

**HEBEI XILIDE Metal Manufacture Co., Ltd -**

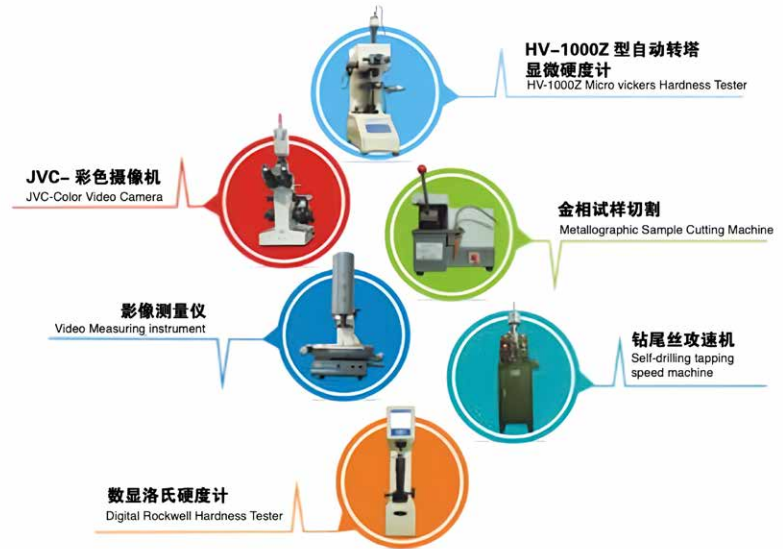

# Specializing in Self-drilling & Self-tapping Screws Manufacturing

**河北喜力德五金 - 专业生产钻尾、自钻螺丝**

Hebei Xilide, established in July 2003, is one of the early professional manufacturers of self-drilling screws and self-tapping screws in China. Its plant occupies a total area of 400,000 square meters, with a total investment of more than RMB 3.4 billion. After more than ten years of development, the company has built a modern, high standard, full-scale, and complete range of self-drilling screws production lines, and developed into a global and systematic group of companies integrating R&D, production, customization, testing, sales, and promotion.

The company spent a lot of money on introducing manufacturing, heat treatment, inspection and testing equipment from Taiwan and Germany, and provides users around the world with self-drilling screws of various specifications and standard requirements that are of high quality, high standard, and high level. Its annual capacity is more than 60,000 tons and products are exported to more than 20 countries and regions, such as India, Russia, the U.S., Canada, Australia, Kazakhstan, Africa, etc., and have gained the support and trust of users.

The company by far has more than 50 middle and senior managers, 35 professional R&D personnel, 50 technicians, 25 warehouse and logistics staff and 650 basic employees. At present, it has more than 1,000 employees in total.

## Why Should You Choose HEBEI XILIDE?

### 1. China's largest fully-automated self-drilling screws production line

As the first and largest screw manufacturer in China, it has an automated production line. With advanced and professional technology, modern production, inspection equipment, strict modern management, and advanced manufacturing technique, it can ensure the quality of each product and guarantee the delivery time.

### 2. Complete product testing process and equipment

The company is equipped with complete production equipment and systems. Its perfect professional testing, strict control, and all-round quality assurance system allow each process, procedure, and link to be under strict quality control, so as to achieve excellent quality.

### 3. International Quality System Certification

The company has obtained the ISO 9001 quality management system certification and CE certification. All products are strictly in accordance with the international standards (RoHS) of production and certified by the international SGS inspection organization. ■
