

TFTA Hosts Annual Assembly- Hundreds of Members Gather to Network

On (Fri.) December 8th, Taiwan Fastener Trading Association (TFTA) chose Queena Plaza Hotel in Tainan to hold its annual membership meeting. Hundreds of TFTA members from the north, central and south regions of Taiwan, as well as their families came to participate in this most important and grandest fastener industry exchange activity held before the lunar New Year.

In addition to the presence of many fastener industry leaders and consultants, TFTA also invited representatives from Taiwan Fastener Association, Taiwan Steel Wire & Wire Rope Industries Association, MIRDC, TAITRA Tainan Office, and Mr. Yoshihide Okuyama, the 3rd generation President of Sunco Industries, a leading distributor and exporter headquartered in Osaka (Japan), which can supply at least 20,000 fastener types, to join together in experiencing the power, enthusiasm, and energy of Taiwan fastener industry.

To promote the spirit of caring for the social vulnerable groups and being passionate about public welfare, TFTA also invited an arts performing group formed by a few patients with rare physical disabilities to perform on stage this year. The group's performances of dancing, singing, and music playing, which demonstrated their courageous and unyielding perseverance to break through barriers, touched the hearts of all guests in attendance, some of whom also purchased benevolent T-shirts, hoping to encourage more members and friends to join in the charity work.

With the delicious food and live band performance, Chairman Josh Chen invited several important guests to sing and dance together, and SUNCO Industries President Okuyama and his colleagues were also invited to sing several songs on the stage and drink with Taiwanese friends, making the atmosphere of the event reach the highest point.

The next TFTA Chairmen and Vice Chairmen, as well as directors & supervisors election was also held at the same time. Mr. Arthur Chiang was elected to be the next new TFTA Chairman after a fierce competition among several candidates.

Additional note: Sunco Industries is increasingly working with global partners on import and export, purchase and supply. Interested parties are suggested to contact assistant manager Tomokazu Takada of the purchasing department of international trade section at takada@sunco.co.jp ■
