近500家企業確定參與2023西班牙畢爾包五金工具展

NEARLY 500 EXHIBITING FIRMS CONFIRMED TO THE DATE TO PARTICIPATE IN +INDUSTRY 2023

The main players in the Smart Manufacturing value chain will gather from 6 to 8 June at +INDUSTRY 2023, the major industrial platform, which will simultaneously host the ADDIT3D, BeDIGITAL, MAINTENACE, PUMPS&VALVES and SUBCONTRATACIÓN trade fairs, as well as the specific section focused on the industrial supplies and hardware sector. So far, more than 489 exhibitor companies have confirmed their participation in the event.

+INDUSTRY will feature sectorised displays of the main innovations and advances in manufacturing processes and supplies for industry, digitalisation, and additive manufacturing, as well as equipment for industrial processes and the latest products and technologies for maintaining assets and facilities in Halls 1 and 3 of the BEC.

It will be a comprehensive and attractive promotional showcase in commercial and technological terms, and will feature companies such as JG AUTOMOTIVE, ALBERDI MEKANIZATU LANAK SL, KL-KATEALEGAIA, EGA MASTER, VICINAY, HEICO FASTENER, ABBYY, ZUCHETTI, CEGID, PIXEL SISTEMAS, DELTECO, MAQUINSER, PEKOS GROUP, TÉCNICA DE FLUID OS, MEI VALVOLE, BOSCH, ROSMIMAN and GENERAL DRIVER MOTOR.

Thanks to the participation of these and other companies and entities, which will offer commercial solutions and proposals to open the way to new markets and products, representatives of large firms such as ACCIONA, ACITURRI, AIRBUS, AMPO, ARCELORMITTAL, ARTECHE, BRIDGESTONE, CAF, EDP, GAMESA, GESTAMP, HENKEL, IBERDROLA, ITP AERO, MERCEDES-BENZ, PEPSICO, PETRONOR, RENFE, SIDENOR, SIEMENS, SOLVAY, TUBACEX, UNILEVER y VOLKSWAGEN GROUP have already registered to attend the fair.

In an industry, such as the advanced one, that is in constant development, it is essential remain at the forefront of innovation to offer competitive and innovative products. This is why +INDUSTRY has enhanced its profile as a space for business and knowledge transfer thanks to a multi-sector conference programme that will address the key aspects related to 4.0 solutions for industry with more than fifty specialists from around the world.

Moreover, the programme of activities will include live demonstrations, Innovation Workshops, networking activities and B2B meetings. The latter will include the 20th European Industrial Subcontracting Meeting, one of Spain's largest forums for B2B meetings, which will feature around a thousand sessions.
